ARTIST'S STATEMENT

Although clear glass is beautiful, the addition of color brings glass to life. As I work with glass, I become "one" with the molten object, creating individuality in each piece through skill and imagination. It is my goal for each work of glass art to evoke a passionate emotion in the viewer.

IMMEDIATE VALUE TO YOUR GALLERY

A **detail-oriented, high-energy artist** with the ability to work at optimum levels while maintaining a creative environment and a **results-oriented focus**. Broadened perspectives for personal expression gleaned by integrating artistic concepts with technology, imagination, and perception.

Self-Management & Transferable Skills

Team Player	Resourceful	Project Management

Evaluation of Creative Resume Strategy

Challenge: To find a glass blower who would agree that my idea could be carried out on an actual piece of glass. Searched off and on for 2+ years on college campuses and art fairs to find the right artist. Most artists said, "it couldn't be done."

Action: Ryan created a colorful piece of glass—the size of a large fruit bowl—large enough to handle a one-page résumé.

He etched, by hand using a dremel tool for precision, the résumé text on the bowl (top-half of résumé on the front; bottom-half on the back) *exactly* the way I formatted it on paper (without pictures) for 20+ hours. Ryan's résumé was, indeed, a "work of art."
